Get in on the conversation:

- Access and Availability of Alcohol to Minors
- Peer Pressure to Drink
- Mental and Physical Consequences
- Consequences of the Law

Alcohol is a factor in the deaths of 4,700 young people each year

One-fifth of high school students reported riding in a car driven by someone who had been drinking, and 26% of those drivers were killed in traffic crashes

Those who begin drinking alcohol by the age of 14 are 7 times more likely to develop a substance abuse problem

About 97,000 college students are victims of sexual assault each year related to alcohol use
