Program description: The National Capital Coalition to Prevent Underage Drinking (NCCPUD) is a nonprofit organization dedicated to preventing and reducing underage drinking and its related harms in the District of Columbia. A coalition of community-based organizations, government, youth, and colleges, NCCPUD has been in the vanguard of developing and implementing prevention programs aimed at reducing underage drinking since 1997. Its mission is to organize, advocate, educate, and build the capacity of local public and private organizations, youth, and the community to reduce underage drinking and related harm. NCCPUD's vision is for a safe environment that embraces youth, supports healthy behaviors, and encourages youth leadership and community investment.

The goals of NCCPUD are to:
- Advocate for environmental policies and practices to reduce underage drinking and unhealthy outcomes related to all substance abuse.
- Build the capacity of the community to develop and implement evidence-based strategies to protect young people from the risk of alcohol and drugs.
- Use media and communications as educational tools to change public perspectives and attitudes, leading to the reduction of underage drinking and related harms.
- Organize and support grassroots responses to the consequences of substance abuse in the community.
- Involve youth at every level of the organization.

NCCPUD, through its Youth Advocates Peer Program, provides and sponsors weekly training/workshops to over 30 area youth on various alcohol-related laws, enforcement activities, and issues currently affecting their environment. NCCPUD Youth Advocates give peer presentations at various public and private senior high schools in the District of Columbia and sponsor yearly Prom Promise events that encourage youth not to make destructive decisions during prom season. NCCPUD also serves as the District Coordinator for the national Students Against Destructive Decisions (SADD) program. Since its inception, NCCPUD has trained over 530 youth advocates for the prevention of underage drinking and currently serves more than 1,500 youth each year in the District of Columbia.

Program description: ABRA issues and renews licenses that enable qualified businesses to sell and serve alcoholic beverages. ABRA monitors compliance with alcoholic beverage control (ABC) laws and takes appropriate enforcement action when licensees violate these laws. When appropriate, ABRA proposes new laws regulating the manufacture, distribution, and sale of alcoholic beverages in the District. ABRA also offers educational programs that help ABC establishments prevent underage individuals from purchasing and consuming alcohol.

Program description: In 2010, the District of Columbia Department of Health’s Addiction, Prevention, and Recovery Administration (APRA) funded four DC Prevention Centers that cover all eight wards through Substance Abuse Prevention and Treatment Block Grant-Prevention Set-Aside funds. Each Prevention Center has two designated wards (Wards 1 and 2; Wards 3 and 4; Wards 5 and 6; Wards 7 and 8) that serve as dynamic hubs that engage, support, and help connect the many community elements that are needed for promoting healthy children, youth, and families, as well as a drug-free city. Prevention Centers address three capacity-building functions in ways that reflect the characteristics and priorities of the populations and geographic areas served. The three functions—community education, community leadership, and community changes—are designed to address priority risk factors and the following outcomes:

- Increase attitudes opposed to alcohol, tobacco, and drug use among children and youth.
- Delay the onset or first use and progression of risk among children and youth.
- Increase involvement of families, youth, and concerned citizens in their community’s planning, decisionmaking, and evaluation for substance abuse prevention.

Data measures have been identified and are being tracked at the District and Ward levels. DC Prevention Centers have a primary role in the DC Strategic Prevention Framework State Incentive Grant (SPF SIG).

#### Programs RELATED TO Underage Drinking

**DC Strategic Prevention Framework State Incentive Grant (SPF SIG)**

URL for more program information: Judith.Donovan@DC.Gov

Program description: The District of Columbia is part of the Cohort IV SPF SIG funded through SAMHSA with a $10.6 million award. The SPF SIG goals are to:

- Prevent the onset and reduce the progression of substance abuse, including childhood and underage drinking and marijuana use, among youth in communities.
- Reduce substance abuse problems, especially underage drinking and marijuana use, among youth in communities.
- Build prevention capacity and infrastructure at the state and community levels to address priority areas, reduce risk, and increase protection for children and youth.
SAMHSA reviews and approves a data-driven strategic plan before 85 percent or all community-level funds can be allocated. Approval of the District of Columbia plan is pending; however, underage drinking is one of two District of Columbia priorities.

In April 2011, SAMHSA approved the District of Columbia Strategic Plan, which focuses on two priorities: underage drinking and the prevention of marijuana use by youth. Competitive grants totaling $1.4 million were to be posted in spring 2012. A SPF SIG Coordinator for each District of Columbia Prevention Center was funded in 2011.

### Additional Clarification

Justice Grants Administration (JGA) is one of several state administering agencies that passes through federal funds, and in this case funds are from the Office of Juvenile Justice and Delinquency Prevention (OJJDP) for the Enforcing Underage Drinking Laws. For the fiscal year ending September 30, 2011, JGA funded two intradistrict agencies and five community-based (CBO) not-for-profit agencies. The programs included but were not limited to alcohol compliance checks and alcoholic establishment enforcement and...
training, as well as training over 40 youth advocates (decoys) in the operation of compliance checks. Several CBOs canvassed their communities for media purposes and held daily/weekly youth meetings as well as social networking. In addition, JGA provided funding to one CBO that administered several SADD Chapters. Because the District of Columbia is not a state, it has offices operating as state administrations; JGA does receive funding under the Juvenile Justice System but not under Enforcing Underage Drinking Laws. There are other District agencies that may provide funding for prevention programs targeting K–12 schools, institutions of higher education, the juvenile justice system, and child welfare; however, they cannot be identified as to which agency provides these funds. Therefore, to indicate “Can’t answer this question; these data are not available in my state” may be an inaccurate response.
