## Iowa State Survey Responses

<b>State Agency Information</b>	
<i>Agency with primary responsibility for enforcing underage drinking laws:</i> Iowa Department of Public Safety, Iowa State Patrol	
<i>Methods by which local and state enforcement agencies coordinate their efforts to enforce laws prohibiting underage drinking:</i> There is no single state alcohol agency for enforcement in Iowa. The Iowa State Patrol works closely with local law enforcement agencies to conduct projects involving underage drinking. Strong working relationships have enabled the program to succeed in making a difference in communities across the state. The Division of Criminal and Juvenile Justice Planning in the Iowa Department of Human Rights receives Enforcing Underage Drinking Laws (EUDL) grant funds, and part of those funds are used by the State Patrol and other local law enforcement agencies to conduct compliance checks and other underage drinking education efforts. Some community coalitions also fund compliance checks. The Alcoholic Beverages Division (ABD) of the Iowa Department of Commerce also partners with local law enforcement when following up on a complaint or an investigation.

<b>Additional Clarification</b>	
<p>The Iowa Alcoholic Beverage Division does not have any police powers over anyone shipping into the state without a license. ABD compliance investigators do contact the entities shipping wine into Iowa without a license and have been successful so far in getting the entities to stop shipping into Iowa or to obtain a proper license to do so. When these situations occur, ABD reviews UPS and FedEx logs to determine which violators do not have a license.</p> <p>EUDL funding provided Iowa with \$336,330 for federal FY2011 enforcement activities. These activities include compliance checks, saturation and party patrols, retailer education, and various media campaigns. Iowa does have STOP Act grantees, but funding data for compliance checks and party patrols has not been submitted to any state agency by these local organizations.</p>

<p>Program description: IDPH funds community coalitions to provide environmental substance abuse prevention strategies to reduce underage alcohol use in communities. Coalitions receive up to \$3,000 from state appropriations for 1 year. Coalitions receiving funding from a state or federal agency in a cumulative amount of more than \$10,000 are not eligible. In state FY2011, 10 coalitions were funded by IDPH. No numbers of youth or adults served were required in the year-end report. Also, 21 Iowa communities receive Drug-Free Communities (DFC) Support Program Grants from the Office of National Drug Control Policy (ONDCP) and SAMHSA. Two communities have DFC Mentoring Grants. Much of their work is to prevent and reduce underage drinking, and it affects overall underage drinking efforts in Iowa. Several of the Substance Abuse Prevention and Treatment Block Grant-funded agencies work closely with them. Also, Iowa has an Alliance of Coalitions for 4 Change (AC4C), a network of substance abuse prevention coalitions that hold quarterly retreats and share strategies to reduce underage drinking. More information about DFCs is available from SAMHSA and ONDCP.</p>

SPF is a five-step process that assists states in developing a comprehensive plan and supports selected communities in implementing effective programs, policies, and practices. One of the two data-driven priorities for Iowa is underage drinking. Environmental strategies will be implemented in 23 Iowa counties selected based on needs data. SAMHSA approved the Strategic Plan, and this spring, the counties will begin implementation. Therefore, no local service data are available at this time.</p>

This state-mandated program is required for all individuals (regardless of age) convicted of operating while intoxicated (OWI) in Iowa. The program goals are to reduce the risk for health problems and impairment problems. PRIME for Life's intervention component focuses on self-assessment to help people understand and accept the need for change. PRIME for Life is recognized as an evidence-based program on SAMHSA's National Registry of Evidence-Based Programs and Practices. During FY2011, 14,691 offenders took PRIME for Life courses from 1 of 51 agencies statewide. The 340 recipients were age 20 or younger. These comprehensive substance abuse prevention contracts are funded by the prevention portion of the Substance Abuse Prevention and Treatment (SAPT) Block Grant and some state appropriations. Among the services provided are diversion programs in most of the 23 services areas. A diversion program is for youth who have received a minor-in-possession charge or other</p>	

alcohol offense (except OWI). If the youth successfully completes the program, then they may be diverted from the court system. The programs have different names, such as “Rethinking Drinking” or “Juvenile Education Group (JEG),” and vary somewhat as to the number of sessions and whether a parent or guardian is required to attend. One diversion program receives EUDL funds from the Department of Human Rights. The data codes to determine the number of parents served were revised this year. Not all the programs require a parent or guardian to attend.

Program description: The Iowa Office of Drug Control Policy funds substance abuse prevention coalitions to work with 10 of the 15 community colleges in Iowa. The U.S. Department of Education Office of Safe and Drug-Free Schools provides funding. The coalitions are assessing reported past-30-day alcohol use and past-30-day binge drinking among underage students using the CORE survey. The survey was conducted twice, once in 2010 and once in 2011. In 2011, 2,489 students completed the survey. Five of the 10 schools are also funded to implement environmental and social media strategies aimed at reducing both past-30-day use and binge drinking. Coalition and college representatives at the sites have all filled out a college readiness survey to measure what supports are already in place. They also completed an Environmental Strategies checklist to see what strategies have been implemented on campuses and in the communities. This project was to end in April 2012.

The program supports the state’s goals of primary prevention of the use or abuse of alcohol, tobacco, and other drugs. Other state funding from Sunday sales liquor license fees is used by IDPH for the Youth Mentoring contracts. These also establish or sustain mentoring programs that promote relationship building and social skills development, use elements of effective practice as established by the National Mentoring Partnership, and promote a positive perception of caring adults in the community. The Mentoring Collaborative Grant is administered by IDPH from Byrne Justice Assistance Grant Program funds received from the Iowa Office of Drug Control Policy to fund mentoring services for at-risk youth ages 11 to 18 in two counties in Iowa. In addition to substance abuse goals, these contracts also work to reduce crime rates. **Additional Clarification**

The Office of Drug Control Policy produces the Iowa Drug Control Strategy as a required annual report to the legislature and the general public. The Strategy describes funding, but allocations are not broken out specifically for underage drinking services. The funding provided for higher education was only from one state university. The Strategy is available at [http://www.iowa.gov/odcp/drug\\_control\\_strategy/strategy.pdf](http://www.iowa.gov/odcp/drug_control_strategy/strategy.pdf).
