**Program Description:** ICRUD is a program of Mental Health America of Indiana whose mission is to create healthier and safer environments by reducing the accessibility and availability of alcohol to underage persons. It aims to reduce youth access to alcohol by educating policymakers and the public about underage drinking and advocating for effective alcohol policies and laws. ICRUD believes that all young people have the right to live and learn in environments that do not promote, condone, or allow underage drinking. The program provides mini-grants to K-12 organizations and universities for on-campus prevention activities, and also organizes a legislative action group made up of college-level administrators to address issues of high-risk campus drinking as well as providing statewide training and policy academies.

Additional Underage Drinking Prevention Programs Operated or Funded by the State

No data

**Program description:** No data

**Additional Clarification**

Fines and forfeitures collected for alcohol- or drug-related offenses are given to coalitions in all 92 counties for alcohol and drug prevention efforts. Because each county is given a different allotment based on the amount of fines collected in the county, and each coalition provides grant funding to various agencies and priorities in their county, it is difficult to determine the exact amount being spent solely on underage drinking prevention from these funds. Typically, these funds go to multiple initiatives or programs targeting multiple areas and are billed by cohorts, making it difficult to distinguish exact amounts. The Division of Mental Health and Addiction also provides grant funding to agencies for
prevention efforts. As these efforts often target multiple domains and risk factors, it is difficult to determine an exact amount of funding going solely to underage drinking efforts.

Other than the funds the Local Coordinating Councils receive from fines and forfeitures, all other underage drinking prevention initiatives are funded with federal dollars, either from the SAPT Block Grant or from EUDL funds. No other state dollars are dedicated to prevention efforts.
