<p><b>Program Description:</b> In 2005, the Nevada State Legislature passed into law the Responsible Beverage Server Training bill. This law requires counties with more than 400,000 people to require all servers and sellers of alcohol to complete a training with established curriculum and standards related to responsible beverage server practices. This includes avoiding the provision of alcohol to minors and to customers clearly impaired from alcohol consumption. Curriculum includes denying sales, techniques, local alcohol ordinances, and fake IDs. Two counties have more than 400,000 people: Clark County (Las Vegas area) with over 2 million residents (70 percent of Nevada’s population), and Washoe County with just over 400,000 residents (20 percent of Nevada’s population). The remaining 15 counties all have under 55,000 residents. Local law enforcement check for server training cards when they conduct their alcohol sale to minors compliance operations. A notice of infraction is issued to the business if an employee does not have a current card, and a copy is sent to the Nevada Department of Taxation. The Department then sends the notice of fine to the business. Revenue from the fines is divided by 50 percent each to the Victims Restitution Fund and to the EUDL program. The EUDL funds from these fines are used to purchase equipment needed by law enforcement officers to conduct EUDL operations.</p>

Nevada uses trainers available through the Underage Drinking Enforcement and Training Center, and has a UDETC trainer in Nevada located within the Las Vegas Metropolitan Police Department. Three other local trainers serving the northern and rural parts of the state are approved to conduct these training sessions as well.</p>

<p><b>Program Description:</b> Working with the Nevada EUDL program, the NIAA crafted an Alcohol and Drug Policy that must be implemented by every high school sports program (including cheerleaders) in order to participate in NIAA sports. The policy is a three-step graduated sanctions project. At the beginning of the season, every athlete and a parent must attend an overview of the policy and sign the agreement to the three-level sanctions: First offense: 2-week suspension from play (but athlete must still attend practices) and 10 hours of community service. Second offense: 3-month suspension from play, and athlete must attend mandatory alcohol and other drug assessment and comply with assessment recommendations. Third offense: Athlete is suspended from high school sports participation for the remainder of his/her high school career. Although the third offense response seems harsh, at this point it is assumed the student has an alcohol or drug problem that participation in sports is not successful in preventing or deterring, and the student is in need of a more targeted treatment response. It is now the school’s responsibility to promote the image of sports as a healthy activity, and participation requires a commitment to a drug-free lifestyle, and is a privilege, not a right. If this privilege is not respected, than that spot on the team should go to someone who would honor the commitment.</p>

<p><b>Program Description:</b> UNR, in collaboration with the Nevada EUDL project, received a discretionary grant from OJJDP to create effective responses to alcohol violations on campus that would incorporate violations off campus as well. The responses are: (1) The Brief Alcohol Screening and Intervention for College Students (BASICS), including an education conference, personal drinking behavior documentation, and followup conference; (2) Substance Abuse Therapeutic Education to Ensure Personal Student Success (STEPS), including weekly psychoeducational classes to address behaviors and choices led by a substance abuse counselor, personalized assessment, drug and alcohol testing, attending drug court and case management meetings; and (3) Treatment, Responsibility, Accountability on Campus (onTRAC), including a personalized program of alcohol testing, individual and group counseling, case management meetings, student development activities, and wellness experiences. Random drug testing may also be used at this level. This program system has achieved a 7 percent recidivism rate. In addition to the personal interventions, UNR changed policies related to alcohol sales at sporting events, limiting sale of one drink per person at a time, stopping sales of alcohol at half-time, restricting tail-gating areas, and screening at game entry to prohibit bringing in alcohol, or admission of people clearly intoxicated. Friday night alternative activities are provided for all campus residents.</p>

<p><b>Program Description:</b> New this year, the Nevada EUDL program was awarded a discretionary grant from the OJJDP through which it is collaborating with Nellis Air Force Base in Clark County to curtail underage drinking by approaching the young airmen as the ultimate “team.” As such, the airmen should be “Living the Life of an Athlete,” a program developed by John Underwood with the American Athletic Institute. Nellis Air Force Base usually has 10,000 airmen at any given time on base. This program will reach all of them with a presentation outlining the life of an athlete, including diet, sleep, central nervous system fatigue, workout preparation, and recovery, and the effects of alcohol on overall and long-term performance. By embedding the alcohol information within the context of ultimate performance and not as a separate “don’t drink” program, initial response demonstrates greater engagement and positive response with the “avoid drinking” message. The message is reinforced with motivational posters, diet tips, exercise tips, and on-base “extreme activity” group and individual competitions. Local law enforcement, the Las Vegas Metropolitan Police Department, is setting up 12 DUI checkpoints on the road leading into Las Vegas from the base 12 times over the next 3 years, and conducting alcohol sale to minors compliance checks in surrounding bars, alcohol sale locations, and other EUDL enforcement operations as an added deterrent to underage drinking. Violations by airmen will be reported to the base mental health services unit. This program was initiated in May 2013, and an evaluation system is in place, but no data outcomes will be available until June 30, 2014.</p>

**Program Description:** Nevada’s 12 local community prevention coalitions created a Statewide Prevention Coalitions (SWPC) organization, authorized as a 501c3. The SWCP members are the coalition directors. The SWPC meets quarterly, and the EUDL initiative is a standing agenda item. The SWPC gives advice and direction to the Nevada EUDL. The coalition communities are very diverse in population as well as in underage drinking prevention needs and resources. Therefore, with SWCP involvement, the EUDL initiative created a minigrant opportunity for up to \$5,000 that coalitions could access to support underage drinking prevention environmental strategies in their communities. Applicants needed to demonstrate that their strategies are best practices or promising practices, and are relevant to their community population, need, and resources. A minigrant report was created that adapted to the DCTAT evaluation report required by OJJDP for reporting and evaluation purposes.

All law enforcement operations targeting underage drinking enforcement are funded by federal and/or local funds and are conducted by local law enforcement agencies. Check points are conducted by these local agencies, often in collaboration with other entities such as NV State Parks, Highway Patrol, and the Bureau of Indian Affairs. The breakout figures for these specific operations are all federally funded.

The Nevada Substance Abuse Prevention and Treatment Agency (SAPTA) funds 12 coalitions that serve all 17 Nevada counties. The coalitions conduct complete needs assessments every 3 years and revise their Comprehensive Community Prevention Plans every year. The needs assessments of Plans determine the priorities for the coalition. The number one priority is to prevent the onset of childhood and underage drinking and drug use. The funds that SAPTA allocates to each coalition both for environmental strategies and for subgrants to direct prevention service providers must accomplish the scopes of work that have been given to SAPTA and determined by state and local data. A specific dollar amount is not given to the coalitions for each activity within the Scope of Work.
