Underage Consumption of Alcohol

Consumption is prohibited with the following exception(s):

- Parent/guardian’s home AND

Internal Possession by Minors

Internal possession is not explicitly prohibited.

Note: Although Minnesota does not prohibit internal possession, it has a statutory provision that makes it unlawful “[f]or any person under the age of 21 years to consume any alcoholic beverages” and further defines “consume” to “ [include] the ingestion of an alcoholic beverage and the physical condition of having ingested an alcoholic beverage.” Laws that prohibit minors from having alcohol in their bodies, but do so without reference to a blood, breath, or urine test, are not considered as prohibiting internal possession for purposes of this report.

Underage Purchase of Alcohol

Purchase is prohibited and there is no allowance for youth purchase for law enforcement purposes.

False Identification for Obtaining Alcohol

Provision(s) targeting minors

- Use of a false ID to obtain alcohol is a criminal offense.
- Penalty may include driver’s license suspension through a judicial procedure.

Provision(s) targeting suppliers

- It is a criminal offense to lend, transfer, or sell a false ID.

Provision(s) targeting retailers

- Licenses for drivers under age 21 are easily distinguishable from those for drivers age 21 and older.
- Retailers are permitted to seize apparently false IDs.
- Specific affirmative defense—the retailer inspected the false ID and came to a reasonable conclusion based on its appearance that it was valid.

Provision of capacity building in the form of specific training and technical assistance around effective coalitions, data collection, use of data, development of strategic plans, evaluation, cultural competency, sustainability, and other prevention topics identified as a need by the community. 7. Implementation of environmental strategies within each funded community, such as passing social host ordinances, having alcohol compliance checks routinely conducted by law enforcement, and banning advertisements for alcohol at local community events. 8. Implementation of a Positive Community Norms campaign to provide information and education around the true community norms of alcohol use and related behaviors and beliefs of underage youth, of the adult community population, and of the parent population.

<p>Program Description: Minnesota is divided into seven prevention regions. Each RPC is responsible for providing technical assistance for those who request help in initiating, implementing, and sustaining ATOD prevention efforts in their region. The RPCs are trained in many aspects of community coalition work, evidence-based programming, community assessment, strategic planning, evaluation, and so on. Each also provides at least one regional training on a topic determined by an annual training assessment survey. RPC programs are funded using SAPT Block Grant prevention funds (the 20 percent setaside). Minnesota SPF SIG Priorities: In May 2010, the SPF SIG Advisory Council used state-level data (provided by the State Epidemiological Outcomes Workgroup) to vote on following priorities for the project:

- Past 30-day alcohol use among youth (will be measured by the MN Student Survey [MSS])
- Binge drinking among youth (will be measured by the MSS)
- Binge drinking among 18- to 25-year-olds (will be measured by the Young Adult Alcohol Survey [YAAS])

Community SPF SIG Grant Program:

- July 2011 RFP identified eight community-level grantees, two-phase funding model, with Phase One starting January 2012
- Phase One: first three steps of the SPF, 18 months long
- Extensive training and technical assistance in addition to templates, tools, and resources provided (the SPF SIG has produced four guidance documents for communities so far)
- Phase One concluded with submission and approval of a community strategic plan; seven grantees received approval and began moving into Phase Two on July 1, 2013
- Contract Amendment for Phase Two: implementation of the strategic plan and related process and outcome evaluation

Summary of Phase One Grantee Work:

- Establish or strengthen a broad-based community coalition
- Conduct a thorough assessment by gathering existing local data (from law enforcement, schools, hospitals, etc.) and conduct the following additional required data collection activities:
 - Young adult alcohol survey
 - Facilitated discussion on local prevention infrastructure
 - Key informant interviews with community leaders
 - Fiscal host questionnaire
 - Coalition functioning survey
 - One-on-one interviews with community members and facilitated discussion
- Develop a local epidemiological profile
- Conduct a prioritization process to identify key intervening variables and local conditions (local root causes of the three MN SPF SIG priority areas)
- Engage the coalition in the process of selecting Phase Two strategies to address priority local conditions
- Develop a thorough Community Strategic Plan

Summary of Phase Two Work:

- Implementing selected strategies
- Strengthening local capacity and prevention infrastructure
- Laying the groundwork for future prevention efforts
- Planning to better serve high-risk sub-populations and groups that require culturally specific programming
- Evaluating process and outcome
- Ongoing sustainability planning
- Re-administering baseline data collection activities

Additional Information Related to Underage Drinking Prevention Programs

<i>State collaborates with federally recognized tribal governments in the prevention of underage drinking</i>	Yes
Description of collaboration: The Minnesota Department of Human Services, Alcohol and Drug Abuse Division, uses SAPT Block Grant funds to fund prevention programming on the Red Lake Reservation. In addition, the Division uses state-appropriated dollars to fund some prevention programming in urban American Indian communities. Funding is funneled through the American Indian Program Section, a subunit within the Alcohol and Drug Abuse Division within MN Department of Human Services. This unit functions as the conduit to the Indian tribes in Minnesota and local American Indian communities, providing training and technical assistance as requested by the tribes and American Indian Urban Prevention Programs. In addition, the Division's legislation requires it to create and maintain an American Indian Advisory Council consisting of representatives from the 11 federally recognized tribes in Minnesota as well as Urban Prevention Programs located in Minneapolis, St. Paul, and International Falls. This advisory council advises the Division in matters related to substance abuse and addiction, treatment, and recovery services in the American Indian communities within tribal reservations as well as local communities.

Additional Clarification	
<p>The Alcohol and Gambling Enforcement Division had a federal grant to administer funds for compliance checks and to maintain records of the outcome of the checks. However, the funding for the program was directed elsewhere, so the information contained in prior reports is not currently maintained by the Division. Recent bills in the Minnesota Legislature specifically targeting funding for underage enforcement left out the Alcohol and Gambling Enforcement Division; thus it received no state funding specific to enforcement/compliance issues related to underage access to alcohol.</p> <p>In addition to the expenditures identified above, approximately \$1,334,734 was expended in prevention efforts in the American Indian community. However, it is unknown how much of this is for community-based versus K–12 school-based prevention. Of the community-based funding, \$1,071,295 relates to the program funded by the SPF SIG.</p>
