Underage Drinking Prevention Programs Operated or Funded by the State

Regional Media Campaigns

Program serves specific or general population	General population
Number of youth served	Not applicable
Number of parents served	Not applicable
Number of caregivers served	Not applicable
Program has been evaluated	Yes
Evaluation report is available	No
URL for evaluation report:	Not applicable
URL for more program information:	No data

Program Description: Regional media-related strategies were implemented to address substance abuse prevalence. These regional campaigns used the state’s “It Matters” materials so that statewide the campaigns had the same look, feel, and message.

Project Sticker Shock

Program serves specific or general population	General population
Number of youth served	Not applicable
Number of parents served	Not applicable
Number of caregivers served	Not applicable
Program has been evaluated	Yes
Evaluation report is available	No
URL for evaluation report:	Not applicable
URL for more program information:	No data

Program Description: Project Sticker Shock seeks to educate persons age 21 or older who might illegally purchase alcohol and provide it to minors. Stickers displaying a warning message about the penalties for furnishing alcohol to minors are placed on all multipacks of beer, wine coolers, and other alcohol products that might appeal to underage drinkers. The impact of the sticker is increased by media coverage of the event(s) and by permanent signs to be displayed by participating licensees.

MADD Power of Parents

Program serves specific or general population	General population
Number of youth served	Not applicable
Number of parents served	Not applicable

Number of caregivers served	Not applicable
Program has been evaluated	Yes
Evaluation report is available	No
URL for evaluation report:	Not applicable
URL for more program information:	No data

Program Description: Through the Power of Parents program, parents and caregivers can attend free, 35-minute parent workshops and receive a parent handbook that provides them with communication tools to talk with their teens about alcohol.

Retailer Compliance Check

Program serves specific or general population	General population
Number of youth served	Not applicable
Number of parents served	Not applicable
Number of caregivers served	Not applicable
Program has been evaluated	Yes
Evaluation report is available	No
URL for evaluation report:	Not applicable
URL for more program information:	No data

Program Description: Random, unannounced retailer compliance checks and controlled buy operations were conducted at retail establishments in defined geographic areas to ensure compliance with state alcohol sales laws prohibiting sale of alcohol to minors, and to ensure positive age verification policies and practices by merchants.

AlcoholEdu

Program serves specific or general population	Specific population
Number of youth served	No data
Number of parents served	No data
Number of caregivers served	No data
Program has been evaluated	Yes
Evaluation report is available	No
URL for evaluation report:	Not applicable
URL for more program information:	No data

Program Description: AlcoholEdu for High School is an online, interactive alcohol education and prevention course designed to increase alcohol-related knowledge, discourage acceptance of underage drinking, and prevent or decrease alcohol use and its related negative consequences. Although high schools typically administer the course to their entire freshman class each year, the course can be used with other high school populations as well. By implementing the program at the population level, schools expose students to a consistent message, ultimately creating a common body of knowledge and a shared experience that helps establish a social safety net among students. The program includes a precourse assessment measuring knowledge, attitudes, and behaviors, followed by three 30-minute lessons, a postcourse assessment, and a 30-day (or more) follow-up review of key course concepts and follow-up assessment. The three lessons address alcohol's effects on the body and impairments produced at various blood alcohol concentrations; alcohol's effects on the mind, including brain development, blackouts, hangovers, and risk taking; and factors that influence decisions about drinking and strategies for making healthy choices. Brief lecture formats present current research, and interactive exercises personalize and reinforce the information. The course, which requires minimal teacher involvement, may be assigned as an outside project or completed in a school's computer lab.

Students can progress through the program at their own pace. Although students have unlimited access to the course materials throughout the academic year, schools are encouraged to tie the course to something that is meaningful to the students, such as a test or project grade, access to a school event, or participation in extracurricular activities. The three lessons are typically completed within 1 to 3 weeks. Students may use their accounts throughout the academic year to access alcohol-related web links or revisit any of the different interactive exercises.

Strengthening Families Program (SFP): For Parents and Youth 10–14 (SFP 10–14)

Program serves specific or general population	General population
---	--------------------

Number of youth served	Not applicable
Number of parents served	Not applicable
Number of caregivers served	Not applicable
Program has been evaluated	Yes
Evaluation report is available	No
URL for evaluation report:	Not applicable
URL for more program information:	No data

Program Description: SFP 10–14 is a family skills training intervention designed to enhance school success and reduce youth substance use and aggression among 10- to 14-year-olds. It is theoretically based on several etiological and intervention models including the biopsychosocial vulnerability, resiliency, and family process models. The program includes seven 2-hour sessions and four optional booster sessions in which parents and youth meet separately for instruction during the first hour and together for family activities during the second hour. The sessions provide instruction for parents on understanding the risk factors for substance use, enhancing parent–child bonding, monitoring compliance with parental guidelines and imposing appropriate consequences, managing anger and family conflict, and fostering positive child involvement in family tasks. Children receive instruction on resisting peer influences to use substances. Sessions, typically held once a week, can be taught effectively by a wide variety of staff.

Saturation Patrols

Program Description: These patrols are designed to saturate an area with officers in order to send a message to the community. This high-visibility effect is a very good method when coupled with a strong media campaign.

Community Trials Intervention To Reduce High-Risk Drinking

Program serves specific or general population	General population
Number of youth served	Not applicable
Number of parents served	Not applicable
Number of caregivers served	Not applicable
Program has been evaluated	Yes
Evaluation report is available	No
URL for evaluation report:	Not applicable
URL for more program information:	No data

Program Description: This is a multicomponent, community-based program developed to alter the alcohol use patterns and related problems of people of all ages. The program incorporates a set of environmental interventions that assist communities in (1) using zoning and municipal regulations to restrict alcohol access through alcohol outlet density control; (2) enhancing responsible beverage service by training, testing, and assisting beverage servers and retailers in the development of policies and procedures to reduce intoxication and driving after drinking; (3) increasing law enforcement and sobriety checkpoints to raise actual and perceived risk of arrest for driving after drinking; (4) reducing youth access to alcohol by training alcohol retailers to avoid selling to minors and those who provide alcohol to minors; and (5) forming the coalitions needed to implement and support the interventions that address each of these prevention components.
