Additional Clarification

Nevada does not have a state-level Alcohol Beverage Control agency. The Enforcing Underage Drinking Laws (EUDL) funds provided by the Department of Justice, Office of Juvenile Justice and Delinquency Prevention, awarded to the Nevada Department of Health and Human Services was subgranted to local law enforcement agencies to conduct EUDL operations including: Alcohol Sale to Minors Compliance Checks, Third-Party Purchaser ("Shoulder Tap" Operations), Juvenile Party Dispersals, Fake ID Intervention, Saturation Patrols, and Juvenile DUI prevention. Fifty percent of fines collected by the Nevada Department of Taxation for local infractions related to noncompliance of server training laws is allocated to local law enforcement for equipment related to EUDL operations.

¹ Or having consumed or purchased per state statutes.

² Underage compliance checks/decoy operations to determine whether alcohol retailers are complying with laws prohibiting sales to minors.

³ Excluding special licenses such as temporary, seasonal, and common carrier licenses.

⁴ Does not include fines imposed by local agencies.

⁵ Does not include suspensions imposed by local agencies.

⁶ Does not include revocations imposed by local agencies.

Program Description: Nevada's Responsible Beverage Server Training law requires all servers and sellers of alcohol in counties with more than 400,000 people to complete a training with established curriculum and standards related to responsible beverage server practices. This includes avoiding the provision of alcohol to minors and to customers clearly impaired from alcohol consumption. The curriculum includes denying sales, techniques, local alcohol ordinances, and fake ID identification. Two counties fall into the category of more than 400,000 people: Clark County (Las Vegas area) with over 2 million residents (70% of Nevada's population), and Washoe County with just over 400,000 residents (20% of Nevada's population). The remaining 15 counties all have under 55,000 residents. Local law enforcement check for server training cards when they conduct alcohol sale to minors compliance operations. A notice of infraction is issued to the business if an employee does not have a current card, and a copy is sent to the Nevada Department of Taxation. The Department then sends the notice of fine to the business. Revenue from the fines is divided by 50% to the Victims Restitution Fund and 50% to the EUDL program. The EUDL funds from these fines are used to purchase equipment needed by law enforcement officers to conduct EUDL operations.

Program Description: Working with Nevada's EUDL program, Nevada's Peace Officers Standards and Training (POST) has approved training for peace officers for continuing education units in the following EUDL strategic operations: alcohol sale to minors, compliance checks, third-party purchaser operations, special events, alcohol control, DUI prevention and intervention, fake ID identification, and intervention controlled juvenile party dispersal. Nevada uses trainers available through the Underage Drinking Enforcement and Training Center, and has a UDETC trainer in Nevada located within the Las Vegas Metropolitan Police Department. Three other local trainers serving the northern and rural parts of the state are approved to conduct these training sessions as well.

Program Description: The University of Nevada, Reno (UNR), in collaboration with the Nevada EUDL project, received a discretionary grant from OJJDP to create effective responses to alcohol violations on campus that would incorporate violations off campus as well. The responses are (1) Brief Alcohol Screening and Intervention for College Students (BASICS), including an education conference, personal drinking behavior documentation, and follow-up conference; (2) Substance Abuse Therapeutic Education to Ensure Personal Student Success (STEPS), including weekly psychoeducational classes to address behaviors and choices led by a substance abuse counselor, personalized assessment, drug and alcohol testing, attending drug court, and case management meetings; and (3) Treatment, Responsibility, Accountability on Campus (onTRAC), including a personalized program of alcohol testing, individual and group counseling, case management meetings, student development activities, and wellness experiences. Random drug testing may also be used at this level. This program system has achieved a 7% recidivism rate. In addition to the personal interventions, UNR changed policies on alcohol sales at sporting events, limiting sale to one drink per person at a time, stopping sales of alcohol at half-time, restricting tailgating areas, and screening at game entry to prohibit bringing in alcohol, or admission of people clearly intoxicated. Friday night alternative activities are provided for all campus residents.

Program Description: The Nevada EUDL program was awarded a discretionary grant from the OJJDP through which it is collaborating with Nellis Air Force Base in Clark County to curtail underage drinking by approaching the young airmen as the ultimate "team." As such, the airmen should be living the "Life of a Warrior," a program

developed from the American Athletic Institute’s “Life of an Athlete” created by John Underwood. Nellis Air Force Base usually has 10,000 airmen at any given time on base. This program will reach all of them with a presentation outlining the life of an athlete, including diet, sleep, central nervous system fatigue, workout preparation and recovery, and the effects of alcohol on overall and long-term performance. By embedding the alcohol information within the context of ultimate performance and not as a separate “don’t drink” program, initial response demonstrates greater engagement and positive response with the “avoid drinking” message. The message is reinforced with motivational posters, diet tips, exercise tips, an on-base “extreme activity” group and individual competitions, and other alternative activity clubs. Local law enforcement, the Las Vegas Metropolitan Police Department, is setting up 12 DUI checkpoints on the road leading into Las Vegas from the base 12 times over the next 3 years, and conducting alcohol sale to minors compliance checks in surrounding bars and alcohol sale locations, and conducting other EUDL enforcement operations as an added deterrent to underage drinking. Violations by airmen will be reported to the base mental health services unit. This program was initiated in May 2013, and an evaluation system is in place, but no data outcomes will be available until June 30, 2016.

Program Description: Working with the Nevada EUDL program, the NIAA crafted an alcohol and drug policy that must be implemented by every high school sports program (including cheerleaders) in order to participate in NIAA sports. The policy is a three-step graduated sanctions project. At the beginning of the season, every athlete and a parent must attend an overview of the policy and sign the agreement to the three-level sanctions: First offense: 2-week suspension from play (but athlete must still attend practices) and 10 hours of community service. Second offense: 3-month suspension from play, and athlete must attend mandatory alcohol and other drug assessment and comply with assessment recommendations. Third offense: Athlete is suspended from high school sports participation for the remainder of his/her high school career. Although the third offense response seems harsh, at this point it is assumed the student has an alcohol or drug problem that participation in sports is not successful in preventing or deterring, and the student is in need of a more targeted treatment response. It is now the school’s responsibility to promote the image of sports as a healthy activity, and participation requires a commitment to a drug-free lifestyle, and is a privilege, not a right. If this privilege is not respected, than that spot on the team goes to someone who honors the commitment.

The Nevada EUDL Initiative has created a statewide database that summarizes all EUDL operations conducted in the state, and can be queried in a number of ways to produce documentation of EUDL operations and trends in Nevada. Due to the loss of EUDL funds in 2015, the database will be dormant effective June 2015.

Description of funding streams and how they are used:

Local law enforcement issues a notice on infraction to liquor retailers whose staff are not in compliance with the Responsible Beverage Server Training law applicable in Washoe and Clark counties. Notices are sent to the Nevada Department of Taxation which invoices and collects fines associated with the infraction notice. The Juvenile Justice Programs Office determines how the 50% of fines collected designated for EUDL programs will be spent at either the state or local level. For 2014, the decision was made to allow local law enforcement to purchase equipment for EUDL operations.
