Program Description: The Substance Abuse Prevention Program is administered by the Wyoming Department of Health, Public Health Division, and braids together state general funds, tobacco settlement funds, and federal funds. Community funding is provided through the single servicing organization, the Prevention Management Organization of Wyoming (PMO). The PMO serves as the agency responsible for conducting and managing the Wyoming Department of Health's population-based public health prevention activities associated with alcohol misuse and abuse, tobacco use, suicide, and other substances, as well as wellness efforts to improve mental health and physical outcomes in Wyoming communities. Services provided are part of a comprehensive plan to accomplish the Department's goals of reducing the primary health burden of substance use and abuse and secondary health burdens resulting from the chronic disease associated therewith.

Programmatically, the PMO provides community funding for prevention efforts in Wyoming used primarily to (a) create environmental changes throughout communities and other systems (e.g., schools, workplaces), (b) promote behavioral changes in individuals that drive healthier lifestyle choices to prevent or reduce chronic disease (e.g., helping tobacco users quit smoking or prevent initiation, encouraging adults to avoid unhealthy alcohol consumption), and (c) educate residents and mobilize communities to create such changes through strategic use of marketing and media. All of these efforts are developed and implemented in accordance with the best scientific

research available in the pertinent prevention/early intervention fields and based on community-level data to ensure the most efficacious utilization of resources.
