

# HAWAII STATE REPORT

## Underage Drinking Prevention and Enforcement

2018

**SAMHSA**  
Substance Abuse and Mental Health  
Services Administration

This State Report is required by the Sober Truth on Preventing (STOP) Underage Drinking Act (Pub. L. 109-422), which was enacted by Congress in 2006 and reauthorized in December 2016 as part of the 21st Century Cures Act (Pub. L. 114-255). The STOP Act requires an annual report “on each State's performance in enacting, enforcing, and creating laws, regulations, and programs to prevent or reduce underage drinking.” As directed by the STOP Act, the State Reports were prepared by the Interagency Coordinating Committee on Preventing Underage Drinking (ICCPUD), which is chaired by the Assistant Secretary for Mental Health and Substance Use, U.S. Department of Health and Human Services.

**Time period covered by this State Report:** The 2018 State Report primarily includes data from calendar year 2017. The state legal data reflects the status of the law as of January 1, 2017. The state survey data was collected in 2017 and was drawn from the most recent 12-month period in which the states maintained the data.

<b>Alcohol-Attributable Deaths</b> (under 21)	11
<b>Years of Potential Life Lost</b> (under 21)	680
Fatal Crashes Involving 15- to 20-Year-Old Driver with BAC > 0.01	
<b>Number of Fatalities Involving 15- to 20-Year-Old Driver with BAC &gt; 0.01</b>	4
<b>Percentage of All Fatal Crashes Involving 15- to 20-Year-Old Driver</b>	27%

\*Note that in previous years, the numbers and percentages for past-month binge drinking by age group were included in these profiles. These data are not included as a separate category this year. The definition of binge drinking used in the National Survey on Drug Use and Health (NSDUH) changed in 2015 and insufficient state-level data using the new criteria exist. As more years of consistent data become available, the state profiles will include past-month binge drinking as a separate sub-group of past-month alcohol use. For more information, see <https://www.samhsa.gov/data/sites/default/files/NSDUH-TrendBreak-2015.pdf>.

## Laws Addressing Minors in Possession of Alcohol

Underage Possession

## Hawaii State Survey Responses

### State Agency Information

#### Agency with primary responsibility for enforcing underage drinking laws:

The State of Hawaii, Department of Health, Alcohol and Drug Abuse Division is a state agency. The Department/Division is not the responsible primary agency to enforce laws for underage drinking. The primary responsibility for enforcing laws regarding underage drinking is under the jurisdiction of our local county police departments and our county liquor control boards (Hawaii, Maui, Oahu, and Kauai).

### Enforcement Strategies

#### State law enforcement agencies use:

Cops in Shops	No
Shoulder Tap Operations	No
Party Patrol Operations or Programs	No
Underage Alcohol–Related Fatality Investigations	No

#### Local law enforcement agencies use:

Cops in Shops	No
Shoulder Tap Operations	No
Party Patrol Operations or Programs	No
Underage Alcohol–Related Fatality Investigations	No

State has a program to investigate and enforce direct sales/shipment laws Yes

Primary state agency responsible for enforcing laws addressing direct sales/shipments of alcohol to minors

On Oahu, the Honolulu Liquor Commission (HLC) has compliance checks that are limited to volume limits per year and ensuring sales are made for personal use and not for resale. Hawaii Department of Taxation regulates business registration of direct shipper wineries and collection of general excise tax on sales made in Honolulu County. The primary agency responsible for enforcing laws addressing direct sales/shipments of alcohol to underaged persons is the County's Liquor Control Board, similar to HLC. These County Liquor Control Boards are under their own County government structure.

Such laws are also enforced by local law enforcement agencies Don't know

### Enforcement Statistics

State collects data on the number of minors found in possession	Yes
Number of minors found in possession by state law enforcement agencies	250

<i>State collects data on license revocations imposed on retail establishments specifically for furnishing minors</i>	No
Number of license revocations imposed <sup>6</sup>	Not applicable
Numbers pertain to the 12 months ending	Not applicable

**Additional Clarification**

Two of the four County Liquor Control Boards provided information for the Stop Act Survey (Oahu and Kauai); Maui and Hawaii had not provided information on the enforcement component when this survey was being completed. Consolidating this data is challenging, as each county operates differently and data is inconsistent. The latest (2015) Uniform Crime Report (UCR) has the most recent data on alcohol-related crimes included driving under the influence (DUI), liquor law violations, and disorderly conduct. The report mentioned that the juveniles charged with alcohol-related offenses were arrested. The County's Department of Liquor Control Board, together with each county's police department, minimally conducts compliance checks on an as-needed basis and if funding allows.

<sup>1</sup> Or having consumed or purchased per state statutes.

<sup>2</sup> Underage compliance checks/decoy operations to determine whether alcohol retailers are complying with laws prohibiting sales to minors.

<sup>3</sup> Excluding special licenses such as temporary, seasonal, and common carrier licenses.

<sup>4</sup> Does not include fines imposed by local agencies.

<sup>5</sup> Does not include suspensions imposed by local agencies.

<sup>6</sup> Does not include revocations imposed by local agencies.

### Underage Drinking Prevention Programs Operated or Funded by the State

#### Media Ready

Program serves specific or general population	Specific population
Number of youth served	151
Number of parents served	No data
Number of caregivers served	No data
Program has been evaluated	No
Evaluation report is available	Not applicable
URL for evaluation report:	Not applicable
URL for more program information:	No data

**Program Description:** Media Ready is a media literacy education program for 6th- to 8th-grade students. The goal of the program is to prevent or delay the onset of underage alcohol and tobacco use by encouraging healthy beliefs and attitudes about abstaining from alcohol and tobacco use and by enhancing the ability to apply critical thinking skills in interpreting media messages, particularly those related to alcohol and tobacco products. Media Ready consists of ten 45-minute lessons based on established models of decision making and research on the message interpretation process. The program includes homework and extension assignments to further students' understanding of media literacy and to provide additional opportunities for practicing newly learned skills. The curriculum is adaptable to a variety of classroom settings and skill levels of students. The Media Ready program kit contains all materials needed to teach the program, including a teacher manual, poster, and CD with media examples. Also available is a comprehensive one-day training workshop, which provides an introduction to the theory and research underlying the program model and instructions for facilitating each program activity. Those who successfully complete an online test at the end of training receive a certification of completion. Media Ready is related to Media Detective, a media literacy education program for 3rd- to 5th-grade students. Media Detective has been reviewed separately by NREPP.

#### Project Towards No Drug Abuse (Project TND)

Program serves specific or general population	Specific population
Number of youth served	466
Number of parents served	No data
Number of caregivers served	No data
Program has been evaluated	No
Evaluation report is available	Not applicable
URL for evaluation report:	Not applicable
URL for more program information:	No data

**Program Description:** Project Towards No Drug Abuse (Project TND) is a drug use prevention program for high school youth. The current version of the curriculum is designed to help students develop self-control and communication skills, acquire resources that help them resist drug use, improve decision making strategies, and develop the motivation to not use drugs. It is packaged in twelve 40-minute interactive sessions to be taught by teachers or health educators. The TND curriculum was developed for high-risk students in continuation or alternative high schools. It has also been tested among traditional high school students.

### Additional Underage Drinking Prevention Programs Operated or Funded by the State

**Program description:** No data

#### Additional Clarification

Media Ready is a research-based media literacy program designed to prevent or delay the onset of substance use, particularly with respect to underage drinking. Students discover the media world around them and develop skills to better understand the messages that are being sent to them. It is intended that the the students apply these skills in everyday life to be able to stop, think, question before accepting media messages, and make informed choices as active consumers.

Project TND is an effective substance abuse prevention program that focuses on three factors that predict tobacco, alcohol, and other drug use, violence-related behaviors, and other problem behaviors among youth. These factors include:

1. Motivation factors (i.e., students' attitudes, beliefs, expectations, and desires regarding drug use)
2. Skills (effective communication, social self-control, and coping skills)
3. Decision-making (i.e., how to make decisions that lead to health-promoting behaviors).

In addition to the state expenditures on underage drinking prevention reported in the annual STOP Act Survey, all states receive federal funds for substance abuse prevention through Substance Abuse Prevention and Treatment Block Grant (SABG) funds, administered by the Substance Abuse and Mental Health Services Administration (SAMHSA). Exhibit 1 shows the sources that Hawaii used for expenditures on substance abuse prevention and treatment in 2017. As indicated, state funds and SABG funds account for the largest sources (68.3 percent and 27.3 percent respectively).<sup>23</sup>

States submit Behavioral Assessment and Plan reports that include their priorities for use of SABG funds, as well as planned expenditures. For FY 2018-2019, Hawaii designated services to children of pregnant women and women with dependent children (up to the age of 12) with substance abuse treatment needs as priority number one for use of SABG funds.<sup>24</sup>
