

LOUISIANA STATE REPORT

Underage Drinking Prevention and Enforcement

2018

SAMHSA
Substance Abuse and Mental Health
Services Administration

This State Report is required by the Sober Truth on Preventing (STOP) Underage Drinking Act (Pub. L. 109-422), which was enacted by Congress in 2006 and reauthorized in December 2016 as part of the 21st Century Cures Act (Pub. L. 114-255). The STOP Act requires an annual report “on each State's performance in enacting, enforcing, and creating laws, regulations, and programs to prevent or reduce underage drinking.” As directed by the STOP Act, the State Reports were prepared by the Interagency Coordinating Committee on Preventing Underage Drinking (ICCPUD), which is chaired by the Assistant Secretary for Mental Health and Substance Use, U.S. Department of Health and Human Services.

Time period covered by this State Report: The 2018 State Report primarily includes data from calendar year 2017. The state legal data reflects the status of the law as of January 1, 2017. The state survey data was collected in 2017 and was drawn from the most recent 12-month period in which the states maintained the data.

*Note that in previous years, the numbers and percentages for past-month binge drinking by age group were included in these profiles. These data are not included as a separate category this year. The definition of binge drinking used in the National Survey on Drug Use and Health (NSDUH) changed in 2015 and insufficient state-level data using the new criteria exist. As more years of consistent data become available, the state profiles will include past-month binge drinking as a separate sub-group of past-month alcohol use. For more information, see <https://www.samhsa.gov/data/sites/default/files/NSDUH-TrendBreak-2015.pdf>.

Underage Drinking Prevention Programs Operated or Funded by the State

Project Northland

Program serves specific or general population	Specific population
Number of youth served	7,113 (Youth in grades 6-8)
Number of parents served	No data
Number of caregivers served	No data
Program has been evaluated	Yes
Evaluation report is available	Yes

Program Description: *Project Northland* is a multilevel intervention involving students, peers, parents, and communities in programs designed to 1) delay the age at which adolescents begin drinking, 2) reduce alcohol use among those already drinking, and 3) limit the number of alcohol-related problems among young drinkers. Administered weekly to adolescents in grades 6–8, the program has a specific theme within each grade level that is incorporated into the parent, peer, and community components. The 6th-grade home-based program targets communication about adolescent alcohol use through student-parent homework assignments, in-class group discussions, and a community-wide task force. The 7th-grade peer- and teacher-led curriculum focuses on resistance skills and normative expectations regarding teen alcohol use and is implemented through discussions, games, problem-solving tasks, and role plays. During the first half of the 8th-grade *Powerlines* peer-led program, students learn about community dynamics related to alcohol use prevention through small-group and interactive classroom activities. During the second half, they work on community-based projects and hold a mock town meeting to make community policy recommendations to prevent teen alcohol use.

Protecting You/Protecting Me

Program serves specific or general population	Specific population
Number of youth served	1,651 (Youth in grades 1-5, 11-12)
Number of parents served	No data

<p>Program Description: <i>Protecting You/Protecting Me (PY/PM)</i> is a five-year classroom-based alcohol use prevention and vehicle safety program for elementary school students in grades 1–5 (ages 6–11) and high school students in grades 11 and 12. The program aims to reduce alcohol-related injuries and death among children and youth due to underage alcohol use and riding in vehicles with drivers who are not alcohol-free. <i>PY/PM</i> consists of a series of 40 science- and health-based lessons, with eight lessons per year for grades 1–5. All lessons are correlated with educational achievement objectives. <i>PY/PM</i> lessons and activities focus on teaching children about:</p> <ol style="list-style-type: none"> 1. The brain—how it continues to develop throughout childhood and adolescence, what alcohol does to the developing brain, and why it is important for children to protect their brains. 2. Vehicle safety, particularly what children can do to protect themselves if they have to ride with someone who is not alcohol-free. 3. Life skills, including decision-making, stress management, media awareness, resistance strategies, and communication. <p>Lessons are taught weekly and last 20–25 minutes or 45–50 minutes, depending on the grade level. A variety of activities promote students’ ownership of the information and reinforce the skills taught during each lesson. Parent take-home activities are offered for all 40 lessons. <i>PY/PM</i>’s interactive and affective teaching processes include role playing, small group and classroom discussions, reading, writing, storytelling, art, and music. The curriculum can be taught by school staff or prevention specialists. <i>PY/PM</i> also has a high school component for students in grades 11 and 12. The youth-led implementation model involves delivery of the <i>PY/PM</i> curriculum to elementary students by trained high school students who are enrolled in a peer mentoring, family and consumer science, or leadership course for credit. The program’s benefits to high school students are derived from learning about the brain and how alcohol use can affect adolescents, serving as role models to the elementary school participants, and taking coursework in preparation for delivering the curriculum.</p>	

Additional Underage Drinking Prevention Programs Operated or Funded by the State

The state funds only two programs (*Project Northland* and *Protecting You/Protecting Me*) that are specific to underage drinking. The state funds additional prevention programs that are broader in scope as they address alcohol, tobacco, and other drugs. From July 1, 2015, to June 30, 2016, these additional programs served 74,878 youth and adults across the state and are listed below:

- LifeSkills Training
- Kids Don't Gamble...Wanna Bet?
- Second Step
- Coping Skills
- Too Good for Drugs
- Al's Pals
- Positive Action
- Project Alert
- Project Toward No Tobacco Use
- Strengthening Families
- Insight Class Program
- Parenting Wisely

Additional Clarification	
Expenditures included in K-12 school-based programs to prevent underage drinking are funds from the 20 percent set-aside for Louisiana's Substance Abuse and Prevention and Treatment Block Grant. Funding expenditures included costs associated with <i>Project Northland</i> and <i>Protecting You/Protecting Me</i> .	

In addition to the state expenditures on underage drinking prevention reported in the annual STOP Act Survey, all states receive federal funds for substance abuse prevention through Substance Abuse Prevention and Treatment Block Grant (SABG) funds, administered by the Substance Abuse and Mental Health Services Administration (SAMHSA). Exhibit 1 shows the sources that Louisiana used for expenditures on substance abuse prevention and treatment in 2017. As indicated, state funds and SABG funds account for the largest sources (53.6 percent and 29.7 percent respectively).³⁷

States submit Behavioral Assessment and Plan reports that include their priorities for use of SABG funds, as well as planned expenditures. For FY 2018-2019, Louisiana designated preventing the onset and reducing the progression of substance use among 12- to 17-year-olds and others as priority number three for use of SABG funds.³⁸
