

This State Report is required by the Sober Truth on Preventing (STOP) Underage Drinking Act (Pub. L. 109-422), which was enacted by Congress in 2006 and reauthorized in December 2016 as part of the 21st Century Cures Act (Pub. L. 114-255). The STOP Act requires an annual report “on each State's performance in enacting, enforcing, and creating laws, regulations, and programs to prevent or reduce underage drinking.” As directed by the STOP Act, the State Reports were prepared by the Interagency Coordinating Committee on Preventing Underage Drinking (ICCPUD), which is chaired by the Assistant Secretary for Mental Health and Substance Use, U.S. Department of Health and Human Services.

Time period covered by this State Report: The 2018 State Report primarily includes data from calendar year 2017. The state legal data reflects the status of the law as of January 1, 2017. The state survey data was collected in 2017 and was drawn from the most recent 12-month period in which the states maintained the data.

*Note that in previous years, the numbers and percentages for past-month binge drinking by age group were included in these profiles. These data are not included as a separate category this year. The definition of binge drinking used in the National Survey on Drug Use and Health (NSDUH) changed in 2015 and insufficient state-level data using the new criteria exist. As more years of consistent data become available, the state profiles will include past-month binge drinking as a separate sub-group of past-month alcohol use. For more information, see <https://www.samhsa.gov/data/sites/default/files/NSDUH-TrendBreak-2015.pdf>.

Additional Clarification

Nevada does not have a state-level alcohol beverage control agency. Formerly, the Enforcing Underage Drinking Laws (EUDL) funds awarded to the Nevada Department of Health and Human Services (by the Department of Justice, Office of Juvenile Justice and Delinquency Prevention) were granted to local law enforcement agencies to conduct EUDL operations including: Alcohol Sale to Minors Compliance Checks, Third Party Purchaser ('shoulder tap' operations), Juvenile Party Dispersals, Fake ID Intervention, Saturation Patrols, and Juvenile DUI Prevention. However, these funds are no longer available to Nevada. Recently, prevention coalitions have focused on changing local policies to combat underage drinking. Since 2010, the following prevention measures have been enacted in Clark County, home to Las Vegas: 1) Tavern Limited Licenses require all alcohol owners/sellers to obtain a work card confirming Underage Alcohol Management and Control Training and background check clearance; 2) mandatory alcohol server training; 3) a ban on any new package stores on Fremont Street (high density area); 4) restrictions on alcohol advertising in windows; 5) a ban on open glass and aluminum liquor containers; 6) a ban on the sale of hard liquor minis; 7) a ban on beer with alcohol content of 11 percent or more; 8) a ban on the sale of malt liquor or beer in 32-ounce containers; 9) prohibition of the opening of any packaged liquor on the Fremont Street Experience mall; 10) a ban on those under age 21 from entering lounge areas unless accompanied by adult 21 years or older; 11) enactment of curfew law for youth under age 21; and 12) stricter enforcement of liquor sale violations. In addition, there are 10 local community coalitions in Nevada that work with community partners to reduce underage drinking across the state.

¹ Or having consumed or purchased per state statutes.

² Underage compliance checks/decoy operations to determine whether alcohol retailers are complying with laws prohibiting sales to minors.

³ Excluding special licenses such as temporary, seasonal, and common carrier licenses.

⁴ Does not include fines imposed by local agencies.

⁵ Does not include suspensions imposed by local agencies.

⁶ Does not include revocations imposed by local agencies.

Life Skills

Program serves specific or general population	General population
Number of youth served	Not applicable
Number of parents served	Not applicable
Number of caregivers served	Not applicable
Program has been evaluated	Yes
Evaluation report is available	Yes
URL for evaluation report: http://www.lifeskillstraining.com/evaluation.php	
URL for more program information: http://www.lifeskillstraining.com/	

Program Description:

Botvin LifeSkills Training is designed for elementary, middle/junior high school, and high school students. It can be

implemented in any classroom setting that is conducive to learning, and the curriculum can be taught in school, community, faith-based, summer school and after-school settings.

It has been evaluated and proven to be effective with:

- White middle-class students
- Ethnic minority students (primarily African-American and Hispanic)
- Inner-city urban populations
- Suburban populations
- Rural populations

LifeSkills Training promotes healthy alternatives to risky behavior through activities designed to:

- Teach students the necessary skills to resist social (peer) pressures to smoke, drink, and use drugs
- Help students to develop greater self-esteem and self-confidence
- Enable students to effectively cope with anxiety
- Increase their knowledge of the immediate consequences of substance abuse
- Enhance cognitive and behavioral competency to reduce and prevent a variety of health risk behaviors

SMART Moves, (SMART+ boosters)

Program serves specific or general population	No data
Number of youth served	No data
Number of parents served	No data
Number of caregivers served	No data
Program has been evaluated	Yes
Evaluation report is available	No
URL for evaluation report:	Not applicable
URL for more program information:	
https://www.bgca.org/programs/health-wellness/smart-moves	

Program Description: SMART Moves uses a team approach that involves club staff, peer leaders, parents, and community representatives. Young people ages 6 to 15 engage in discussion and role-playing, practicing resilience and refusal skills, developing assertiveness, strengthening decision-making skills, and analyzing media and peer influence. The ultimate goal is to promote abstinence from substance abuse and adolescent sexual involvement through the practice of responsible behavior.

Positive Action

Program serves specific or general population	General population

Evaluation report is available	Yes
URL for evaluation report:	
https://www.positiveaction.net/research/outcomes/alcohol	
URL for more program information:	
https://www.positiveaction.net/applications/alcohol-use-prevention	

Program Description: Positive Action is an effective alcohol use prevention program. It features lessons that explicitly address the health and social consequences of alcohol use. Students learn healthful personal habits that discourage substance use and encourage a healthy lifestyle. Students also learn how alcohol can directly affect their self-concept and quickly learn that alcohol use is a negative action that will produce negative feelings. These topics are addressed holistically, and cover the health implications of alcohol and provide important tools and strategies to handle peer and social pressure to drink alcohol.

Program Description: MAGIC, a University of Nevada Cooperative Extension program, is an innovative, collaborative prevention program designed to help juvenile offenders leave the criminal justice system and become productive members of society. While participating in MAGIC, young people ages 12-18 learn positive communication skills, problem solving, decision making, self-responsibility, conflict resolution, and goal setting. MAGIC is designed for, and has proven successful with, teens just entering the juvenile justice system or juveniles with low incident rates. Thousands of young people have participated in MAGIC. Most teens report increased self-esteem, better attitudes toward peers and school, and increased communication with parents and other adults. MAGIC received the 1997 National Award for Excellence at the National Rural Institute on Alcohol and Drug Abuse from the Center for Substance Abuse Treatment, U.S. Department of Health and Human Services.

Program Description: Alcohol is the drug of choice for American teenagers, and alcohol use during early adolescence increases the likelihood of progression to heavy alcohol use and to the use of other illicit drugs. The influence of peers, family members, school, the media, and the community have been shown to play a critical role in promoting or discouraging alcohol use among teens. That's why the prevention researchers who developed Project Northland focused on engaging not only youth but also schools, families, and the larger community in one comprehensive prevention effort.

Project Northland employs grade-specific tasks, exercises, and activities in a variety of highly engaging, interactive formats--such as comic books and posters--to reach young people at an age when they are most likely to try alcohol. Because this program includes important community components, it can be effectively implemented by schools as well as by community programs.

Additional Information Related to Underage Drinking Prevention Programs

State collaborates with federally recognized tribal governments in the prevention of underage drinking Yes

Description of collaboration: Nevada funds a statewide Native American coalition to carry out prevention activities, and provides a liaison to the tribal entities where outreach is made to address any unmet needs of specific tribes. The state also participates in an intertribal council on health, reports on its activities, provides the opportunity for the tribes to ask questions, and serves as a partner in planning activities that affect the tribes.

State has programs to measure and/or reduce youth exposure to alcohol advertising and marketing Yes

Description of program: Laws prohibit direct advertising to minors. Shoulder tap operations enforce laws when products are sold to minors.

State has adopted or developed best practice standards for underage drinking prevention programs Yes

Agencies/organizations that established best practices standards:

Federal agency(ies): SAMHSA Yes

Agency(ies) within your state: SAPTA Yes

Nongovernmental agency(ies): No

Other: No

Best practice standards description: Each year our State aims to improve best practices. We provide technical assistance training and set new policies. We encourage implementation of best practices, evidence-based practices, and promising practices, and encourage all funded entities to implement programs and practices to fidelity while collecting data and outcome measures. Nevada is also funding more evidence- and outcome-based programs.

Funds Dedicated to Underage Drinking

State derives funds dedicated to underage drinking from the following revenue streams:

Taxes	Yes
Fines	Yes
Fees	Yes
Other:	No data

Description of funding streams and how they are used:

We receive funds from the liquor tax and state general funds. We also receive some federal funds to address underage drinking, but are currently not tracking the portion that is specific to underage drinking. We bundle prevention dollars together to support the prevention of multiple substances including tobacco, marijuana, alcohol, and other drugs. The strategies vary based on community need and community expenditure wishes, and can include information dissemination, education, problem identification and referral, alternative activities, environmental strategies, and community-based processes.

In addition to the state expenditures on underage drinking prevention reported in the annual STOP Act Survey, all states receive federal funds for substance abuse prevention through Substance Abuse Prevention and Treatment Block Grant (SABG) funds, administered by the Substance Abuse and Mental Health Services Administration (SAMHSA). Exhibit 1 shows the sources that Nevada used for expenditures on substance abuse prevention and treatment in 2017. As indicated, SABG funds and state funds account for the largest sources (48.1 percent and 29.4 percent respectively).³

States submit Behavioral Assessment and Plan reports that include their priorities for use of SABG funds, as well as planned expenditures. For FY 2018-2019, Nevada designated substance abuse prevention and early intervention, including the decrease of alcohol use among middle school students, as priority number five for use of SABG funds.⁴
