

NORTH CAROLINA STATE REPORT

Underage Drinking Prevention and Enforcement

2018

SAMHSA
Substance Abuse and Mental Health
Services Administration

This State Report is required by the Sober Truth on Preventing (STOP) Underage Drinking Act (Pub. L. 109-422), which was enacted by Congress in 2006 and reauthorized in December 2016 as part of the 21st Century Cures Act (Pub. L. 114-255). The STOP Act requires an annual report “on each State's performance in enacting, enforcing, and creating laws, regulations, and programs to prevent or reduce underage drinking.” As directed by the STOP Act, the State Reports were prepared by the Interagency Coordinating Committee on Preventing Underage Drinking (ICCPUD), which is chaired by the Assistant Secretary for Mental Health and Substance Use, U.S. Department of Health and Human Services.

Time period covered by this State Report: The 2018 State Report primarily includes data from calendar year 2017. The state legal data reflects the status of the law as of January 1, 2017. The state survey data was collected in 2017 and was drawn from the most recent 12-month period in which the states maintained the data.

Number of Fatalities Involving 15- to 20-Year-Old Driver with BAC > 0.01	33
Percentage of All Fatal Crashes Involving 15- to 20-Year-Old Driver	16%

*Note that in previous years, the numbers and percentages for past-month binge drinking by age group were included in these profiles. These data are not included as a separate category this year. The definition of binge drinking used in the National Survey on Drug Use and Health (NSDUH) changed in 2015 and insufficient state-level data using the new criteria exist. As more years of consistent data become available, the state profiles will include past-month binge drinking as a separate sub-group of past-month alcohol use. For more information, see <https://www.samhsa.gov/data/sites/default/files/NSDUH-TrendBreak-2015.pdf>.

Beer	Prohibited
Wine	Prohibited
Spirits	Prohibited

Direct Shipments/Sales	
May alcohol producers ship directly to consumers?	Yes
What alcohol types may be shipped?	Wine
Must purchaser make mandatory trip to producer before delivery is authorized?	No
Age verification requirements	
Must the producer/shipper verify purchaser's age before sale?	No
Must the common carrier (deliverer) verify age of recipients?	Yes
State approval/permit requirements	
Must the producer/manufacture obtain state license or permit?	Yes
Must the common carrier (deliverer) be approved by a state agency?	Yes
Recording/reporting requirements	
Must the producer/manufacture record/report purchaser's name?	No
Must the common carrier (deliverer) record/report recipient's name?	No
Shipping label requirements	
Must the label state "Package contains alcohol"?	Yes
Must the label state "Recipient must be 21 years old"?	Yes

Keg Registration	
How is a keg defined (in gallons)?	Equal to or more than 7.75
Prohibitions	
Is it illegal to possess an unregistered or unlabeled keg and if so, what is the penalty?	Yes (discretionary fine/45 days)
Is it illegal to destroy the label on a keg, and if so, what is the penalty?	No
What purchaser information is collected?	
Must the retailer collect the name and address?	Yes
Must the retailer collect the ID number, name and address on license or other government information?	Yes

Cops in Shops	Yes
Shoulder Tap Operations	No
Party Patrol Operations or Programs	Yes
Underage Alcohol–Related Fatality Investigations	Yes

Local law enforcement agencies use:

Cops in Shops	No
Shoulder Tap Operations	No
Party Patrol Operations or Programs	No
Underage Alcohol–Related Fatality Investigations	No

State has a program to investigate and enforce direct sales/shipment laws	No
Primary state agency responsible for enforcing laws addressing direct sales/shipments of alcohol to minors	Not applicable
Such laws are also enforced by local law enforcement agencies	Not applicable

Enforcement Statistics

State collects data on the number of minors found in possession	Yes
Number of minors found in possession ¹ by state law enforcement agencies	10,076
Number pertains to the 12 months ending	12/31/2016
Data include arrests/citations issued by local law enforcement agencies	Yes
State conducts underage compliance checks/decoy operations ² to determine if alcohol retailers are complying with laws prohibiting sales to minors	Yes
Data are collected on these activities	Yes
Number of retail licensees in state ³	21,309
Number of licensees checked for compliance by state agencies (including random checks)	9
Number of licensees that failed state compliance checks	0
Numbers pertain to the 12 months ending	12/31/2016
Compliance checks/decoy operations conducted at on-sale, off-sale, or both retail establishments	Both on- and off-sale establishments
State conducts random underage compliance checks/decoy operations	No
Number of licensees subject to random state compliance checks/decoy operations	Not applicable
Number of licensees that failed random state compliance checks	Not applicable
Local agencies conduct underage compliance checks/decoy operations to determine if alcohol retailers are complying with laws prohibiting sales to minors	Yes
Data are collected on these activities	No
Number of licensees checked for compliance by local agencies	Not applicable
Number of licensees that failed local compliance checks	Not applicable
Numbers pertain to the 12 months ending	Not applicable

Sanctions

State collects data on fines imposed on retail establishments that furnish minors	Yes
Number of fines imposed by the state ⁴	246
Total amount in fines across all licensees	\$555,150
Smallest fine imposed	\$500
Largest fine imposed	\$500
Numbers pertain to the 12 months ending	12/31/2016

<i>State collects data on license suspensions imposed on retail establishments specifically for furnishing minors</i>	No
Number of suspensions imposed by the state ⁵	Not applicable
Total days of suspensions across all licensees	Not applicable
Shortest period of suspension imposed (in days)	Not applicable
Longest period of suspension imposed (in days)	Not applicable
Numbers pertain to the 12 months ending	Not applicable
<i>State collects data on license revocations imposed on retail establishments specifically for furnishing minors</i>	No
Number of license revocations imposed ⁶	Not applicable
Numbers pertain to the 12 months ending	Not applicable

Additional Clarification

No data

¹ Or having consumed or purchased per state statutes.

² Underage compliance checks/decoy operations to determine whether alcohol retailers are complying with laws prohibiting sales to minors.

³ Excluding special licenses such as temporary, seasonal, and common carrier licenses.

⁴ Does not include fines imposed by local agencies.

⁵ Does not include suspensions imposed by local agencies.

⁶ Does not include revocations imposed by local agencies.

Underage Drinking Prevention Programs Operated or Funded by the State

NC Preventing Underage Drinking Initiative (NC-PUDI)

Program Description: The North Carolina Preventing Underage Drinking Initiative (NC-PUDI) focuses on community-based approaches that emphasize environmental management strategies to prevent underage drinking. As the Congressional National Academy of Sciences/Institute of Medicine report *Reducing Underage Drinking: A Collective Responsibility* states, “Underage drinking cannot be addressed by focusing on youth alone. Youth drink within the context of a society in which alcohol use is normative behavior, and images about alcohol are pervasive. They usually obtain alcohol—either directly or indirectly—from adults. Efforts to reduce underage drinking, therefore, need to focus on adults and must engage the society at large” (National Research Council and Institute of Medicine. *Reducing Underage Drinking: A Collective Responsibility*. Committee on Developing a Strategy to Reduce and Prevent Underage Drinking, Richard J. Bonnie and Mary Ellen O’Connell, Editors. Board on Children, Youth, and Families, Division of Behavioral and Social Sciences and Education. Washington, DC: The National Academies Press, 2004).

NC-PUDI offers technical assistance to Community Collaboratives addressing the issue of underage alcohol use. These Collaboratives work within their communities to implement strategies that prevent underage drinking and create a sustainable movement to stop practices that make underage drinking both easy and acceptable. The Collaboratives’ primary strategies focus on decreasing underage access to alcohol; changing community norms that promote underage and excessive alcohol consumption; and addressing policies pertaining to underage drinking. NC-PUDI is administered by the North Carolina Department of Health and Human Services/Division of Mental Health, Developmental Disabilities and Substance Abuse Services, and supported by the SAMSHA Substance Use Block Grant. NC-PUDI continues the initiatives originally funded by the OJJDP Enforcing Underage Drinking Laws program, which supported and enhanced efforts by states and local jurisdictions to prohibit the sale,

purchase, and consumption of alcoholic beverages to and by minors (minors are defined as individuals under 21 years old).

Program Description: *Talk It Out* is a statewide campaign administered by the North Carolina Alcoholic Beverage Control Commission to reduce underage drinking through TV ads and social media and a website to help parents talk to youth. *Talk It Out* has developed resources that provide parents with information to talk with their children about underage drinking.

Additional Underage Drinking Prevention Programs Operated or Funded by the State

Program description: No data

Additional Clarification

Preventing and reducing underage drinking through retail compliance is one of the most effective strategies available (Pacific Institute for Research and Evaluation/Office of Juvenile Justice and Delinquency Prevention. *Regulatory strategies for preventing youth access to alcohol: Best practices*. Calverton, MD: Pacific Institute for Research and Evaluation (PIRE), 1999). Alcohol purchase surveys, unlike compliance checks, can be performed without the assistance of law enforcement as long as the youth attempting to purchase are at least 21 years old. Purchase surveys are designed to facilitate a dialogue between the community and its retailers. Any strong prevention program incorporates citizens, retailers, the media, and law enforcement—alcohol purchase surveys accomplish all four tasks. Specifically, alcohol purchase surveys are used to:

1. Assess community needs and collect data on which retailers in the community are potentially selling to underage youth.
2. Raise community awareness and build support for efforts to prevent sales to minors.
3. Inform merchants that they are being monitored and motivate them to change non-compliant practices.
4. Inform law enforcement officials with important information.
5. Measure the impact of prevention strategies so that communities can assess the effectiveness of the strategies they implement (PIRE, 1999).

Community Collaboratives return to every retail establishment surveyed to inform store management that the community cares about the issue of underage drinking and is conducting alcohol purchase surveys as a way to monitor alcohol sales practices. At that time, store management is also informed about how their store performed in the alcohol purchase survey and where they can get responsible alcohol sales training for their employees. Following each round of purchase surveys, funded Community Collaboratives submit a press release to local media and a detailed statistical report/complaint to law enforcement. Several studies have shown that generating publicity around underage alcohol sale surveys is an effective way to increase the success of local law enforcement efforts (PIRE, 1999). Therefore, results of the surveys are used for educational purposes including warning letters, congratulatory letters, and use in the media. Community Collaboratives also provide a summary report to local law enforcement. For the Community Collaboratives to effectively serve their “community watch” role, collected data from alcohol purchase surveys must be shared with local law enforcement agencies. Community Collaboratives disseminate the report summarizing the purchase survey findings after each round of surveys. From October 1, 2015 to September 30, 2016, the state conducted 2,087 alcohol purchase surveys. Of those surveys, which included targeting problem establishments, 82.4 percent asked for the mock buyer’s identification and passed the survey. Community Collaboratives involve youth in their efforts to prevent underage drinking and foster the development, or encourage the expansion, of an underage drinking prevention youth empowerment movement in their community.

Additional Information Related to Underage Drinking Prevention Programs

State collaborates with federally recognized tribal governments in the prevention of underage drinking No

Description of collaboration: Not applicable

State has programs to measure and/or reduce youth exposure to alcohol advertising and marketing No

State has adopted or developed best practice standards for underage drinking prevention programs Yes

Agencies/organizations that established best practices standards:

Federal agency(ies): Community Preventive Services Task Force; OJJDP; CDC; National Institute of Medicine/National Academy of Sciences; U.S. Dept. of HHS/Surgeon General; NREPP. Yes

Agency(ies) within your state: NC Institute of Medicine; NC DHHS; NC Practice Improvement Collaborative Yes

Nongovernmental agency(ies): No

Other: No

Best practice standards description: The North Carolina Preventing Underage Drinking Initiative (NC-PUDi) uses and continues to develop innovative strategies to help achieve the long-term goal of preventing underage drinking. This continuing effort is designed to further support and develop Community Collaboratives working to implement environmental management strategies to prevent underage drinking. This objective is responsive to the recommendations outlined in OJJDP's publication, *Strategies to Reduce Underage Alcohol Use* (PIRE, 1999); the National Institute of Medicine/National Academy of Sciences (IOM/NAS) report, *Reducing Underage Drinking: A Collective Responsibility*; the *Surgeon General's Call to Action to Prevent and Reduce Underage Drinking*; *Guide to Community Preventive Services*; the National Registry of Evidence-based Programs and Practices (NREPP); and the *North Carolina Institute of Medicine Substance Abuse Services Task Force Report*. Although many of the recommended components of the IOM/NAS report and the *North Carolina Institute of Medicine Substance Abuse Services Task Force Report* require significant action at the national and/or state level, the reports specify several areas in which local communities can play significant complementary and reinforcing roles. Not surprisingly, several of the recommendations are consistent with strategies recommended by OJJDP in their 1999 publication, *Strategies to Reduce Underage Alcohol Use* (PIRE, 1999). According to the IOM report, two evidence-based strategic actions that can occur at the community level are community mobilization and restricting access. Community Collaboratives aimed at curbing underage drinking are valuable adjuncts to state and local government interventions. Such Collaboratives, which include people with diverse perspectives, interests, and responsibilities, can provide the political will and organizational support for implementing strategies that have proven effective at preventing underage drinking. They also place emphasis on a local culture in which underage drinking is considered a serious and unacceptable problem. Such local norms lend support to heightened enforcement of laws against underage drinking. By providing a context that supports recommended interventions, community mobilization efforts increase the overall likelihood that such interventions will meet success. To effectively implement this comprehensive approach, the IOM committee recommended the following three strategies:

1. Community leaders assess their community's particular problems and resources and—using effective approaches including community organizing, building Community Collaboratives, and strategic use of the mass media to support policy changes and enforcement—tailor their efforts to combat underage drinking accordingly.
2. Include colleges and universities in collaboration and implementation efforts for a range of interventions.
3. Elementary, secondary, and high school education programs should be evidence-based and should avoid interventions that rely on provision of information alone or fear tactics.

Listed below are the critical elements of effective interventions as summarized in the report:

- Be multicomponent and integrated
- Be sufficient in "dose" and follow-up
- Establish norms that support non-use

- Stress parental monitoring and supervision
- Be interactive
- Be implemented with fidelity
- Include limitations in access
- Be institutionalized
- Avoid an exclusive focus on information
- Avoid congregating high-risk youth
- Promote social and emotional skill development among elementary school students

By urging greater emphasis on restricted access, the report offers a wake-up call for adults from whom youth generally obtain alcohol (parents who allow drinking parties in their homes, adults who have alcohol in the home that is not monitored and secured, strangers who buy alcohol for teenagers waiting outside stores, or sales clerks and bartenders who sell alcohol to minors). State and local communities can work to not only create and enforce laws, but also to explain the reasons why compliance is important and elicit public support for limiting access. Recommended strategy urges that states and localities, working with law enforcement as appropriate, restrict youth access by:

1. Targeting servers and sellers, by:
 - a. Increasing compliance checks, supported by media campaigns and license revocation to increase deterrence
 - b. Implementing responsible beverage service programs as a condition of retail outlet licensing
 - c. Developing new or strengthened server and seller liability laws
 - d. Regulating Internet sales and home delivery of alcohol to prevent/reduce underage purchases
2. Targeting parents and other adults to promote compliance with youth access restrictions through:
 - a. Keg registration laws
 - b. “Shoulder tap” or other prevention programs targeting adults who purchase alcohol for minors
 - c. Stronger anti-loitering measures
 - d. Measures to hold retailers accountable for loitering
 - e. Securing and monitoring alcohol in the home
3. Targeting youth through:
 - a. Sobriety checkpoints with swift and certain sanctions for young drunk drivers
 - b. Graduated license programs
 - c. Modified laws to allow passive breath testing, streamlined administrative procedures, and administrative penalties, such as immediate driver’s license revocation
 - d. Media campaigns to publicize enforcement and encourage compliance
 - e. Identifying and breaking up teen drinking parties and holding relevant adults and youth accountable
 - f. Making it more difficult to use false identification (ID) by issuing scannable IDs, allowing retailers to confiscate licenses, and implementing administrative penalties for false ID use
 - g. Increasing access to treatment services for young drinkers who need clinical treatment

NC-PUDI has the overall goal of focusing on: community mobilization centered on implementation of environmental management strategies, and restricting access through increased collaboration with law enforcement agencies. Strengthening the bridges that the Community Collaboratives have built with law enforcement in previous rounds of funding remains a top priority. With an emphasis on alcohol purchase surveys, followed by the dissemination of survey results to law enforcement, retailers, and local media, Community Collaboratives directly assess and influence community norms and retail practices related to alcohol access in their communities.

developed for broadcast, print, and social media markets across North Carolina. Advertising materials provide links to a web site (Talkitoutnc.org) that provides information and resources geared to helping parents and teens have important conversations about alcohol and why children should not drink until they are adults. The campaign is part of the larger ABC Commission's Initiative to Reduce Underage Drinking that includes outreach with the public safety and public health communities as well as partnership with the alcohol industry to address underage drinking issue head-on.

2. Seven percent of sales from distilled spirits sold at the ABC stores are dedicated to training and education and are determined locally through ABC boards and/or county commissioners.

Additional Clarification

The North Carolina Department of Human Services Preventing Underage Drinking Initiative (NC-PUDi) and additional complementary efforts are federally funded. No state funds are specifically dedicated to the prevention of underage alcohol use.

In addition to the state expenditures on underage drinking prevention reported in the annual STOP Act Survey, all states receive federal funds for substance abuse prevention through Substance Abuse Prevention and Treatment Block Grant (SABG) funds, administered by the Substance Abuse and Mental Health Services Administration (SAMHSA). Exhibit 1 shows the sources that North Carolina used for expenditures on substance abuse prevention and treatment in 2017. As indicated, state funds and SABG funds account for the largest sources (79.9 percent and 17.9 percent respectively).¹³

States submit Behavioral Assessment and Plan reports that include their priorities for use of SABG funds, as well as planned expenditures. For FY 2018-2019, North Carolina designated treatment of juvenile justice-involved youth for substance abuse as priority number two for use of SABG funds.¹⁴
