

OHIO STATE REPORT

Underage Drinking Prevention and Enforcement

2018

SAMHSA
Substance Abuse and Mental Health
Services Administration

This State Report is required by the Sober Truth on Preventing (STOP) Underage Drinking Act (Pub. L. 109-422), which was enacted by Congress in 2006 and reauthorized in December 2016 as part of the 21st Century Cures Act (Pub. L. 114-255). The STOP Act requires an annual report “on each State's performance in enacting, enforcing, and creating laws, regulations, and programs to prevent or reduce underage drinking.” As directed by the STOP Act, the State Reports were prepared by the Interagency Coordinating Committee on Preventing Underage Drinking (ICCPUD), which is chaired by the Assistant Secretary for Mental Health and Substance Use, U.S. Department of Health and Human Services.

Time period covered by this State Report: The 2018 State Report primarily includes data from calendar year 2017. The state legal data reflects the status of the law as of January 1, 2017. The state survey data was collected in 2017 and was drawn from the most recent 12-month period in which the states maintained the data.

*Note that in previous years, the numbers and percentages for past-month binge drinking by age group were included in these profiles. These data are not included as a separate category this year. The definition of binge drinking used in the National Survey on Drug Use and Health (NSDUH) changed in 2015 and insufficient state-level data using the new criteria exist. As more years of consistent data become available, the state profiles will include past-month binge drinking as a separate sub-group of past-month alcohol use. For more information, see <https://www.samhsa.gov/data/sites/default/files/NSDUH-TrendBreak-2015.pdf>.

Program Description: The Ohio College Initiative to Enhance Student Wellness seeks to enhance student wellness by promoting the creation of campus/community coalitions that implement community based process and environmental strategies to strengthen the campus culture. The Initiative focuses on the following areas: restricting marketing and promotion, improving social and recreational options, limiting availability, increased enforcement of policies, and creating a health promotion environment. The Prevention Action Alliance (formerly Drug-Free Action Alliance [DFAA]) will work in partnership with the Higher Ed Center at the Ohio State University to carry out this important work. This college intervention seeks to change the alcohol-related culture of students on college campuses by building a campus/community coalition that identifies and implements environmental strategies. This model provides training and technical support to campus faculty and top administration officials to encourage and assist in the implementation of evidence-based prevention strategies. At this time, 54 four-year institutions and a number of community colleges are engaged in the College Initiative at this time.

In addition to the state expenditures on underage drinking prevention reported in the annual STOP Act Survey, all states receive federal funds for substance abuse prevention through Substance Abuse Prevention and Treatment Block Grant (SABG) funds, administered by the Substance Abuse and Mental Health Services Administration (SAMHSA). Exhibit 1 shows the sources that Ohio used for expenditures on substance abuse prevention and treatment in 2017. As indicated, Medicaid, SABG, and state funds account for the largest sources (63.5 percent and 10.3 percent respectively).¹⁷

States submit Behavioral Assessment and Plan reports that include their priorities for use of SABG funds, as well as planned expenditures. For FY 2018-2019, Ohio designated ensuring availability of prevention services to families with children and adolescents as the number two priority for use of SABG funds.¹⁸
